Profile

Creative UI/UX and Product Designer with hands-on internship experience and a strong foundation in user-centered design. Proficient in Figma and Adobe Creative Suite with working knowledge of React, HTML and CSS.

Professional Experience

Design Intern - AppsForBharat (On-Site) - Created engaging graphic designs and edited videos for marketing and internal communications. - Contributed to employer branding initiatives by designing creative assets and visual campaigns. - Designed blog UI layouts to enhance user experience - Developed custom mascots to strengthen the company’s brand identity.	January 2025 - Present
UI/UX Design Intern - CODTECH IT Solutions Pvt. Ltd. - Redesigned landing page and app interfaces to improve usability and visual appeal - Built a fully responsive site using HTML, CSS, and JavaScript - Designed accessible AR/VR mockups focusing on user interaction	May 2025 - June 2025
Graphic Designer (Freelance) - Delivered posters, logos, banners, and social media posts for brand consistency - Managed client communication and revisions independently across 2 years	August 2023 - May 2025

Projects

Moduvo - Cross-Org Collaboration Platform  - Designed end-to-end SaaS collaboration platform concept for cross-organisational teams - Defined product lifecycle, user flow, feature decisions and marketing landing page in Figma - Documented complete product thinking through a structured UX case study	Product Design Concept
Sourced -Artist Accountability & Segregation Platform:  Problem: Existing platforms do not distinguish between AI-generated and traditional artwork, leaving human artists without identity or recognition in shared spaces. Research: Interviewed 25+ traditional and AI artists to pinpoint friction points, validate assumptions and gather requirements that shaped the entire design direction. Solution: Proposed a platform where users are verified as traditional artists by a peer buddy before they can post, creating a clear separation between AI and human-made work.	UX Case Study
Indeed App Redesign: Link to project  - Identified usability issues in job search and application flows - Redesigned IA and interaction patterns for improved navigation - Created high-fidelity mobile prototype in Figma	UI/UX - Mobile
Green Gallery - Plant Information & Donation Website :  - Designed a responsive plant donation platform addressing discoverability across 4+ plant care categories - Applied full UX process from research to delivery - empathy maps, user personas, low and high-fidelity wireframes - Implemented a certificate system to reward donors and reinforce positive user behaviour through emotional design	Web - Accessibility
