Profile

Aspiring Product Designer with a passion for crafting intuitive and user-centered digital experiences. Skilled in UI/UX design using Figma and Photoshop, with hands-on experience developing responsive web interfaces using React, HTML, and CSS. Adept at collaborating directly with clients as a freelance designer, delivering creative and impactful solutions by combining strong communication with technical expertise.

Education

- Ramaiah Institute of Technology Bengaluru, India
Master of Computer Applications **CGPA: 8.84** February 2024 - June 2025

Skills Summary

- Languages: Python, C, JavaScript
- Tools: HTML, CSS, MySQL, Beginner in React.js, Git, GitHub
- Cloud Technologies: AWS Cloud Computing
- UI/UX Design Skills: Wireframing, Prototyping, User Research, Information Architecture, Figma
- Additional Skills: Adobe Photoshop (4+ years), Adobe Illustrator, Web Designing, Digital Art

Professional Experience

- Post Production Digital Artist - Pocket FM #1 Audio Series Platform (Freelance)** August 2025 - present
Created AI-assisted comic visuals, combining image generation and manual editing to refine anatomy and produce polished final artwork.
- UI/UX Design Intern - CODTECH IT Solutions Pvt. Ltd.** May 2025 - June 2025
Redesigned landing page and app interfaces, built a fully responsive site, and created accessible AR/VR mockups
- Digital Artwork:** February 2021 - March 2025
Created custom artwork through Fiverr, Discord, and Pixiv Fanbox, maintaining a 4.9/5 average client rating while securing commissions from over 5 new international clients.

Projects

- Digital Artist Portfolio Website:**
Tools: React.js + vite, HTML, CSS, Figma
 - Built a responsive portfolio site resulting in 2x faster project showcase loading time.
 - Implemented interactive elements that led to 40% more engagement in design showcase sessions.
 - Achieved full responsiveness across 3 breakpoints, improving mobile usability significantly.
- Sourced -Artist Accountability & Segregation Platform:**
Designed a **UX case study** for an art-focused platform informed by 25+ user interviews that separates AI-generated and traditional artwork. Integrated features like “art buddy” accountability, progress tracking, and goal setting to support consistent artistic growth.
- Green Gallery - Plant Information & Donation Website :**
 - A responsive plant donation and information website designed using Figma. It lets users donate unwanted plants via a handover page, view care tips and videos. Successful donors receive a certificate of contribution and it supports 4+ plant categories with care tips.
 - Designed with accessibility in mind, design process, empathy maps, user persona along with low and high-fidelity wireframes.

Certifications

- Wireframing, Prototyping, and UX Principles** through LearnTube.ai
- Figma** through LearnTube.ai
- NPTEL online certificate for **Usability Engineering**
- Unxt Soft Skill Program by Unnati (Offline training for English Communication, Employability, Life Skills and Value Topics.)
